Presenter Scott David

We are social animals, evolutionarily and neurologically wired for connection. Unfortunately, our personal, professional and cultural beliefs are sometimes at odds with creating meaningful connection. The Connection Mindset uses this innate biological need for connection as a framework for building resilience, authenticity and strengthening emotional intelligence. We will explore skills and best practices for reconnecting with self,

meaning and others from a dual perspective - how they contribute to personal health and well-being and how they improve professional and organizational performance.

The live session will be recorded for later access through our website's online learning library.

2019 WICT Tech It Out Conference

Thursday, November 14 | 8:00 am - 4:00 pm (Mountain Time)

[Live streaming option now available](#)

WICT's [Tech It Out Initiative](#) premiered in 2009 with the goal of creating strong women leaders in technology, while also raising awareness about the vast opportunities for women in the tech fields within our industry.

This year, WICT Global is proud to partner with the [WICT Rocky Mountain Chapter](#) on a one-day conference in Denver on **Thursday, November 14**. While the event is sold out, we are excited to announce that the chapter has made arrangements to stream the full-day program live from Denver.

The program includes Tech Talks, cutting-edge technology demonstrations and panel discussions. Notable keynote speakers include **Vernice "FlyGirl" Armour**, America's first female African American combat pilot and former captain in the Marine Corps; **Shane Portfolio**, SVP, Engineering, Comcast; and **Janine Davidson, Ph.D.**, President, Metropolitan State University of Denver. There will also be a fireside chat featuring **Stephanie Mitchko**, Charter's new CTO, in a conversation with 2019 Cable Hall of Fame inductee **Leslie Ellis**. Mitchko and Ellis are both recipients of WICT's *Women in Technology Award*, in 2013 and 2010, respectively.

Here are the details - plan now to tune in live next month:
